

# Business Acceleration FOR WOMEN IN AGRIBUSINESS

4-month program. Expedite business growth. **Apply Now**

**52% of Uganda's labour force are women majorly in entrepreneurship (both micro, small and medium enterprises).** However, women face more challenges in starting, managing, and growing their enterprises as they are more likely to be impeded by society biases or a lack capacity like skills and resources. Therefore, as Agribusiness Development Centre, through our Business Accelerator Program, we intend to attract women-led businesses trying to get out of the concept/ideation phase and make them investment ready.

ADC Business Accelerator Program will help your company expedite growth and scale, and as such, we extend a call to women led Agribusinesses to apply for our 4-month Acceleration program to equip you for investment readiness. The program will include special trainings, mentorship, coaching and networking. All participants will be guided by professionals in their acceleration path with an opportunity to discuss compliance matters with experts.

#### Application Criteria

1. Primarily, Women-led Agribusinesses (at least 50% owned or led by women) that are part of the Women in Business Program at dfcu bank or have gone through other related agribusiness development initiatives.
2. A registered Agribusiness in Uganda;
3. Must have an account in dfcu bank or willing to open one;
4. Must be a for profit entity or in support of profit-making women agribusinesses;
